SCHOOL CONTEXT OVERVIEW

Fregon Anangu School has a steady enrolment between 40-60 students.

The school is staffed by the Principal, Anangu Coordinator, four Teachers, the Pre-school Coordinator, the Family Centre Teacher as well as four School Service Officers & six Anangu Teachers.

Fregon features an impressive preschool/family centre which is the newest on the APY lands. The preschool is central to our focus on early years to build a successful learning culture now and into the future at Fregon. Fregon children have benefited from a diverse education that has culminated a very successful relationship between the Trade Training Centre and our senior class.

In 2017 Fregon is continuing our journey to implement the Lands Partnership Aust. Curriculum as well as reinvigorating our numeracy block in every class.

The community has a proud sporting heritage being home to the Fregon Bulldogs, and the art & cultural heart of APY lands.

Families and children enjoy a strong relationship with Victor Harbour School going back 35 years. Our students enjoy a music program provided by the Lands instrumental Teacher and Smart Start.

The school provides a supportive and safe environment to enable children to reach their full potential. It has forged associations and links with other schools within the partnership and look to consolidate and extend these relationships in 2017.

Matt Green
Principal
